

Subject Index

- abstracting from computation, 164
- academic English, 338–340
- adaptive reasoning, 158–160
- Adding It Up*, 5, 19, 20, 60, 64, 68, 155
- algebra for all, 155
- algebraic proficiency, 155–162, 296, 298
 - abstracting from computation, 171, 173
 - doing-undoing, 164, 165, 168
 - equality and equation, 165–166, 174, 175
 - habits of mind, 164
 - rule-building, 164, 169
 - variable and function, 165, 173, 174
- assessment,
 - aligned with instruction, 315, 318
 - classroom, 338, 346–352
 - curriculum and, 83, 105
 - design principles, 75, 78, 94, 95
 - diagnostic, 279, 280, 283, 296
 - embedded, 319
 - framework, 328
 - informing curriculum, 194, 200, 207, 208, 328
 - informing instruction, 9, 141, 149, 200, 207, 322, 328
 - informing professional development, 9, 26, 142, 194, 209, 279
 - informing students, 9, 322
 - linguistic considerations, 189, 280, 333–343, 345–352
 - modes, 277, 346
 - performance, *see* performance task
 - policy and, 6, 14, 82, 95, 96, 353, 354, *see also* NCLB
 - principles for system of, 311–324
 - unintended consequences, 10
- bar models, 196, 202
- beliefs and dispositions, 68–71
- California Assessment Program, 281
- cognitive revolution, x, 59–60
- conceptual understanding, 19, 158–161
- curriculum, *see also* *Task Index* (p. 389)

- bar models, 196, 202
- definitions, 33–37, 44, 46, 56
- deformation, xiii, 12, 72
- parallel lines, 348–350
- patterns, 39
- precision, 33, 56
- use of equals sign, 148, 165
- variables 165, 173, 174

- debatable use of mathematics, 116–121
- definitions, 46, 56
 - need for, 33, 44
 - pictorial and verbal, 34–37
- diagnostic test, 292–295, 297
- disability, accommodation for, 23

- fake “real-life” problem, 101
- Framework for Balance*, 88, 89, 93
- Framework for Classroom Assessment*, 102
- France, 283

- high-stakes testing, ix, xii, 7–9, 11, 12, 14, 138, 152, 208, 299

- knowledge base, 60–64

- legal issues, x, xii, 3
- lesson study, 195
- LINGOT, 296

- MAC, 137–152, 194, 202
- MARS, 82, 89, 139, 167
- mathematical literacy, 19, 60, 85, *see also*
 - proficiency for citizenship
- mathematics
 - applications, 42
 - as lists, 40, 41, 53–55, 83
 - patterns, 39
 - stages, 33–37, 56
 - what it is, 29, 32, 33
- metacognition, 66–68
- motivating students, 132
- multiple-choice test, *see under* task, response format

- NAEP (National Assessment of Educational Progress), 3, 12, 24, 27, 279
- NCLB (No Child Left Behind Act), xi, 2, 6, 7, 23–27, 72, 137, 281, 355

- PEPITE, 296
- Principles and Standards*, 46, 61, 62, 126
- procedural fluency, 158–159
- productive disposition, 158, 160
- proficiency, 5
 - beliefs and dispositions, 68–71
 - for citizenship, 76, 113, 124
 - knowledge base, 60–64
 - mathematizing, 75, 86, 189
 - metacognition, 66–68
 - modeling, 75, 85–87, 90
 - problem solving, 46–49, 52–57, 61–62, 64–66, 70, 86, 88, 89, 101
 - strategic competence, 64–66
 - with fractions, 6, 193–194, 269–275
 - addition, 276
 - equivalence, 273, 274
 - estimation, 276
 - fraction of fraction, 275
 - number line, 272, 273
 - part-whole representation, 271–272, 274, 275
 - procedural fluency, 272
- PSCM, x
- psychometric issues, xiii, 3, 4, 8, 9, 17, 72, 78, 83, 99, 357, 358, 361
 - reliability, x, xii, 26, 320, 323
 - validity, x, xii, 26, 315, 320, 323
- publishers, *see* text developers

- released and nonreleased items, 133, 359, 360–363
- rubric, *see* scoring guides

- scoring
 - automated (non-multiple-choice), 134
 - methodology, 139
 - reliability, x, 140
 - training for, 140, 360
 - guides, 322, 355

- Silicon Valley Mathematics Assessment
 Cooperative, 63, 76, 138, 156, 167, 194
 Singapore, 196, 202
 strategic competence, 64–66, 158–159, 161
 student misconceptions, 148, 165
- task
 administration, 188, 189
 context, 115
 problem posing, 79
 realistic context, 177, 178, 182–187, 190
 response format, 88, 134, 139
 constructed response, 79, 208, 299, 360
 extended multiple-choice, 358
 machine-scorable, 134
 multiple-choice, xii, 7, 78, 83, 132, 137, 189, 207, 320, 346
 open-ended, 8, 79, 93
 scaffolded, 79, 81, 90, 91
 types, 89, 319
 well-posed problem, 33, 38, 49–53
- test, *see also* psychometric issues
 administration
 accommodation for disability, 23
 accommodation for language, 23
 time allowed, 140
 Balanced Assessment, 63, 139
 Baccalauréat, 283, 284, 286–292, 297, 299–303
 Brevet, 286, 291
 CAHSEE, ix, 13, 155, 333, 335–337, 339, 340
 California Standards, 150
 CAP (California Assessment Program), 357–360
 CLAS (California Learning Assessment System), 360–362
 California Achievement Test, 343
 cost, xiii, 5, 8, 78, 82, 96
 developers, 7, 9, 32, 83
 for teachers, 134
 California, 1870s, 127–132
 Michigan, 1890s, 131
 NBPTS, 130–132
 Praxis, 129–130
 GRE, 4
 high-stakes, 72, 155
 Japanese university entrance, 134
 large-scale versus embedded assessment, 319
 linguistic issues, 13, 23
 MARS, 139, 149–152
 PISA, 75, 101–105, 316, 323
 sample items, 359, 360, 363
 discrepancy with nonreleased items, 362
 SAT-9, 63, 138, 362
 score comparison, 63, 149–151
 standard-setting, 325–328
 STAR, 138, 149–151
 TIMSS, 75, 99–100, 104–105, 125–127
Tools for Teachers, 76, 141, 142, 167–175
 word problems, 70
 WYTIWYG, 12, 72, 82, 328
